

RSS Activity Name: Children's National DC Mother-Baby Wellness Perinatal Mental Health Training Series **Activity Code:** 870754

Somatic Healing in the Perinatal Period: Skills for Regulating Emotions and Physiology for the Resolution of Trauma and Foundation for Secure Attachment

Abi Blakeslee, SEP, CMT, MFT, Ph.D.

Implicit Psychotherapy, Founder

Wednesday, December 13, 2023

Learning Objectives:

- Understand and define the difference between explicit and implicit memory and how this can be used to process a mother/birthing person's and baby's birth experience.
- 2. Identify how to get a birth history using explicit and implicit timelines.
- 3. Name three regulation practices that help resolve trauma and increase secure attachment.

Accreditation: This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Medical Society of Virginia (MSV) through the joint providership of Inova Office of Continuing Medical Education and Children's National Medical Center. The Inova Office Continuing Medical Education is accredited by the Medical Society of Virginia to sponsor continuing education for physicians.

2:00 pm – 3:00 pm
