

Children's National.

Children's National Pediatric Anesthesiology Grand Rounds

Racial Disparities in Surgical Outcomes

Olubukola O. Nafiu, MD, FRCA, MS

Target audience:

Anesthesiologists, Fellows, Residents and Nurses

Learning objectives:

1. **Comprehensive Understanding of Health Disparities:** Develop a nuanced understanding of health disparities, exploring the various dimensions, root causes, and intersections that contribute to disparate health outcomes.
2. **Identifying Key Determinants:** Gain insight into the social, economic, and cultural determinants influencing health disparities, enabling participants to recognize and address the multifaceted factors contributing to inequities.
3. **Strategies for Inclusive Healthcare:** Explore practical strategies to promote inclusivity and equity within healthcare systems, empowering participants to contribute to the creation of more accessible and responsive healthcare environments.
4. **Advocacy and Action Plans:** Equip participants with the tools and knowledge needed to advocate for policy changes, implement community-based interventions, and actively contribute to addressing health disparities in their respective spheres.
