Target audience: Pediatric Pulmonologists; Advance Practice Practitioners, nurses and respiratory therapists in pulmonary medicine; Intensivists; Emergency Medicine physicians; Allergists; General Pediatricians

Learning objectives:

- Understand the novel approach for the development, breadth, and impact of the CF TDN over the past 26 years.
- Describe the successes in development of new, approved therapeutics for CF and use of observational studies to understand CF treatments.
- Appreciate the impact of CFTR modulators on clinical outcomes for people with CF.
- Understand the current and future work in nucleic acid-based therapies (i.e. genetic therapies) and symptomatic therapies for those not able to use highly effective modulator therapy.

Accreditation: The Medical Society of Virginia is a member of the Southern States CME Collaborative, an ACCME Recognized Accreditor. This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Southern States CME Collaborative (SSCC) through the joint providership of Inova Health System Office of Continuing Medical Education and Children's National Hospital. Inova Health System Office of Continuing Medical Education is accredited by the SSCC to provide continuing medical education for physicians.

Credit designation: The Inova Office of Continuing Medical Education designates this live educational activity for a maximum of 1.0 AMA PRA Category 1 Credit(s)[™]. Physicians should only claim credit commensurate with the extent of their participation in the activity. Physicians may claim up to 1.0 credit in Type 1 CME on the Virginia Board of Medicine Continued Competency and Assessment Form required for renewal of an active medical license in Virginia.
