Inova Loudoun Hospital

Role of Wound Care in a Limb Preservation Program

Richard Neville, MD

Thursday, April 4, 2024

12:00pm

Microsoft Teams Meeting #263-919-715-537

Passcode: r7rAbZ

Learning Objectives

- Recognize the indications for arteriography in the setting of chronic ischemia and use the lower extremity arteriogram to direct a treatment plan, including options for endovascular therapy, and options in the absence of adequate autogenous conduit.
- Demonstrate proper patient selection through accurate history and physical examination, the indications, and contraindications for limb revascularization.
- Understand the role of the Non-invasive Vascular Lab in the diagnosis of peripheral arterial disease and the selection of patients requiring revascularization for wound healing.
- Recognize the indications for arteriography in the setting of chronic ischemia and use the lower extremity arteriogram to direct a treatment plan.
- Establish a basic treatment plan.

Target Audience

Physicians and Advanced Practice Providers

To claim credit, text code **HOBSEC** to 703-260-9391

Accreditation: The Medical Society of Virginia is a member of the Southern States CME Collaborative, an ACCME Recognized Accreditor. Inova Health System Office of Continuing Medical Education is accredited by the Southern States CME Collaborative to provide continuing medical education for physicians.
