Target audience: Members of the medical staff all subspecialties, medical residents and students.

Learning objectives:

- Define the term “Reproductive Depression.”
- Describe how hormonal changes experienced during pregnancy may change gene expression.
- Discuss how identification of women at elevated risk for postpartum depression during pregnancy alters the treatment approach for postpartum depression.
- Identify which CNS neurotransmitter system that neuroactive steroids act

Accreditation: The Medical Society of Virginia is a member of the Southern States CME Collaborative, an ACCME Recognized Accreditor. Inova Health System Office of Continuing Medical Education is accredited by the Southern States CME Collaborative to provide continuing medical education for physicians.

Credit designation: The Inova Office of Continuing Medical Education designates this live educational activity for a maximum of 1.0 AMA PRA Category 1 Credit(s)™. Physicians should only claim credit commensurate with the extent of their participation in the activity. Physicians may claim up to 1.0 credit in Type 1 CME on the Virginia Board of Medicine Continued Competency and Assessment Form required for renewal of an active medical license in Virginia.
