Target audience: Members of the medical staff, cardiology practitioners, fellows

Learning objectives:

- Review the role of novel subcutaneous GP/IIb/IIIa inhibition in the prehospital management of suspected STEMI and how this strategy may enhance early reperfusion compared with current antiplatelet approaches.
- Critically appraise the CELEBRATE trials key efficacy and safety outcomes and discuss how these results should inform contemporary STEMI care
- In partnership with our pharmacology colleagues, discuss real-world considerations for adoption, including patient selection, bleeding/thrombocytopenia risk, and alignment with Cath Lab antithrombotic workflows

Accreditation: The Inova Office of Continuing Medical Education is accredited by the Medical Society of Virginia to provide continuing medical education for physicians.

Credit designation: The Inova Office of Continuing Medical Education designates this live educational activity for a maximum of 1.0 AMA PRA Category 1 Credit(s)[™]. Physicians should only claim credit commensurate with the extent of their participation in the activity. Physicians may claim up to 1.0 credit in Type 1 CME on the Virginia Board of Medicine Continued Competency and Assessment Form required for renewal of an active medical license in Virginia.
